

## WATERPROOFING

# DIAMOND PLUS

HIR Diamond Plus is an admixture use to waterproof concrete during the construction stage. HIR Diamond Plus Entraps every single particle in concrete increase the free flow of concrete removing all air bubbles and fill all the gaps easily makes concrete cohesive, more intact and waterproof, and increase compressive strength.

### FEATURES

- Waterproof Mortar, Plaster and concrete.
- Increase compressive strength & Durability of construction.
- Increase work ability of plaster and concrete
- Resists Corrosion of steel
- Reduce crack developing in concrete and plaster by Reducing its shrinkage.

Concrete mixture machine/terrace/rcc building work

**Pack:** 5/10/20/230 Ltr  
**Dosage\*:** 300ml / per 50kg cement bag  
**Color:** Brownish yellow like petrol
